"I have had the pleasure of working with Zola for the past 12 years ...during which time she has worked in various capacities including teaching, performing and directing small theatrical plays..... Zola communicates extremely well with her students..... and she is able to handle large groups of children easily. ...As one of the most popular teachers at (this) Center, her programs are usually oversubscribed. Zola's original songs are delightful - filled with powerfully positive messages, beautiful imagery and her simply incredible voice. Her style is both captivating and engaging. Parents are constantly raving to me about Zola's CDs, saying that no matter how often they play her music, they NEVER tire of it....."
